

Turbogrow Shallow® Chick Feeder

Increase productivity with this third generation baby chick feeder for receiving baby chicks during it's first 14 days of age

Features

Conical-cylindrical hopper with six feed distribution windows and a "W" shaped pan.

Recommended density of one **TURBOWGROW SHALLOW®** for every 50 to 100 chicks.

Manufactured with 100 % virgin plastic and additives that provide high resistance and durability.

Thanks to its design, stowing is quick and easy, occupying a minimum amount of space.

Capacity: 9.9 lbs.

Height: 6.69"

Benefits

- Greater live weight at the end of the flock
- Avoids feed waste
- Decrease in feed conversion
- Mortality Reduction
- Improves uniformity
- Easy to wash and disinfect

Designed
and patented
by SEPHNOS
