

TURBOMATE® Chick Feeder

Sixth-generation patented baby chick feeder

Features:

- Made with 100% high-density virgin plastic and additives that provide a high resistance and durability.
- This exclusive and innovative baby chick feeder is composed of a hopper, pan, hanger and clamp with a shutter.
- Offers two positions: "ON" 90° position for feeding broilers or "OFF" 145° position for storage, washing and disinfecting work.
- Flips into storage position on the right or left side, eliminating torque on the feeder line.
- The clamp is easy to install around the metal feeder tube (smooth or ridged) and remains permanently fixed.
- The recommended density is: 1 TURBOMATE / 75 to 100 chicks.

Benefits:

- Greater live weight from the first week to the end of the flock.
- Easy access to the feed minimizes feed waste.
- Improves Feed Conversion.
- Better uniformity.
- Promotes intestinal integrity.
- Mortality and cross infection are reduced.
- Easy to clean and disinfect.

For use with:
